### DETAILED ACTION

The amendment filed 8/9/06 is acknowledged.

Claims 8-26 are being considered on the merits. Claims 1-7 and 28-59 are withdrawn from consideration as directed to a non-elected invention.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 8 is confusing in that the method used for “selecting” is not disclosed with any particularity. In other words, the amount of mimosine or the specific compound required for the selection process is not disclosed with any particularity. For example, the nature of the “toxic degradative product thereof” is not set forth with sufficient particularity. The only product identified in the as filed specification is 3,4-dihydroxypyridine. It is recommended that claim 8 be combined with claims 9 and 10 to clarify the selection intended by replacing “toxic degradative product thereof” with -- 3,4-dihydroxypyridine-- as well as indicating the concentration of mimosine or 3,4-dihydroxypyridine added to the culture (0.001mM to 50mM). .

Claim 8 is vague and indefinite in the recitation of “purity X” regarding purity. The term “X” is not defined in the specification. This terminology is ambiguous and open to interpretation. It is recommended that the claim be amended to read --A method for obtaining an isolated or purified culture of a dinoflagellate--.

Similar amendments are recommended for claim 17 and 18, i.e., combination each of these claims should include the limitations of claims 19 and 20 to replace “toxic degradative product thereof” with -- 3,4-dihydroxypyridine-- as well as indicating the concentration of mimosine or 3,4-dihydroxypyridine added to the culture (0.001mM to 50mM).

No claim is allowed.

Art Unit: 1651

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
